SECTION V — FIRE-FIGHTING MEASURES

Extinguishing Media: Use appropriate media for surrounding fire.

Unsuitable Extinguishing Media: N/A

Special Fire-Fighting Procedures: Wear NIOSH-approved self-contained breathing apparatus with full face piece operated in positive pressure/demand mode with full body protective clothing. Avoid contact with skin and breathing smoke, fumes, and decomposition products. Cool fire-exposed containers with water fog to prevent bursting.

Unusual Fire and Explosion Hazards: FLAMMABLE. Contents under pressure. Exposure to temperatures above 122°F (50°C) may cause bursting. Keep away from heat, sparks, open flames, and other sources of ignition.

Hazardous Combustion Products: Oxides of carbon and unidentified organic compounds may be formed during combustion.

SECTION VI — ACCIDENTAL RELEASE MEASURES

Personal Protective Equipment: Refer to Section VIII.

Spill Procedures: Eliminate all sources of ignition. Clean up using a rag or non-combustible absorbent material such as vermiculite, sand, or earth. Prevent spill from entering sewers, storm drains, and natural waterways. Place waste in proper containers for disposal.

Waste Disposal: Dispose of in accordance with local, provincial, and federal regulations. Do not reuse, puncture, or incinerate container. Offer for recycling or wrap container and place in trash collection.

RCRA Status: Waste likely considered D001 (Ignitable waste) under RCRA. Product should be fully characterized prior to disposal (40 CFR 261).

SECTION VII — HANDLING AND STORAGE

Handling: Do not use or store near heat, open flames, or other sources of ignition. Wear proper PPE. Avoid contact with skin, eyes, and clothing. Wash hands thoroughly after handling.

Storage: Store in a cool, dry, well-ventilated area. Protect from sunlight. Do not expose to temperatures exceeding 50°C / 122°F. Pressurized container: do not pierce or burn, even after use. Do not store with strong oxidizers.
