CI Sewer Flushing Aid

Surfactant-based flushing aid for silt, mud,
and debris.

Professional Grade Specialty Chemicals

A surfactant-based flushing aid that breaks up and disperses mud, silt, and debris from storm and sanitary sewers. **CI Sewer Flushing Aid** is biocompatible by design — scheduled line cleaning that lifts deposits without undoing the bioaugmentation working upstream.

DISPERSES DEPOSITS

Breaks up mud, silt, and debris in the line.

BIOCOMPATIBLE

Cleans the line without killing upstream biology.

SCHEDULED FLUSHING

Built for planned line-maintenance programs.

APPLICATION

Use	Meter into the flushing flow per program
Targets	Storm and sanitary sewer deposits
Coordination	Time with upstream bioaugmentation
Cadence	Scheduled flushing program

PROGRAM FIT

Form	Liquid surfactant
Program role	Flushing / dispersant
Best for	Storm & sanitary lines
Biology	Compatible

USED IN

Storm sewers

Sanitary sewers

Scheduled flushing

Flushing clears the line; biocompatible chemistry keeps it from costing you the biology you just built.

Made in Canada · For industrial use only
